

PRODUCT CATALOG

OUR STORY

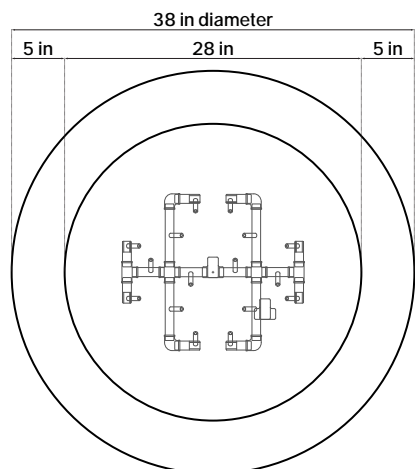

Our journey began with a simple idea: to create more than just fire pits, but spaces where people can connect, share, and celebrate life. The mass production fire pit market lack personality, durability and the unique charm that turns a fire pit into a focal point of connection. With backgrounds in design and metal working, our hobby has become our passion. Each design represents a labor of love, hand forged with care and infused with meaning. Every fire pit we've created, reflects the people and spaces who've inspired them. We are proud to craft fire pits that bring warmth and beauty to homes, backyards, hotels, and campsites across the country. We believe a fire pit is more than just a product - it's a symbol of togetherness, a stage for life's best moments, and a timeless way to bring people closer. At Element 29, we are honored to help you create memories that glow as brightly as the flames.

At Element 29, we forge more than just fire pits - we craft gathering spaces that spark connection, creativity, and lasting memories. Our mission...is to ignite your imagination and provide a centerpiece for the moments that truly matter.

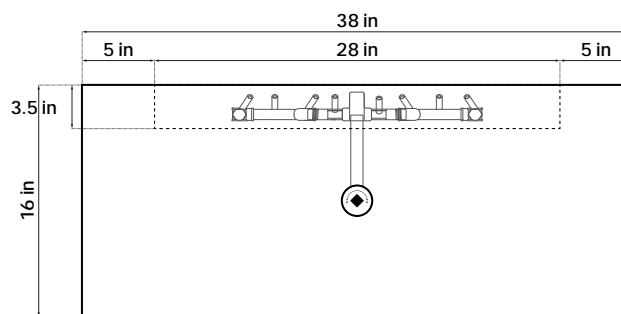

This Hawaiian word for fire dates back to ancient times. "Ahi" embodies life, energy, and transformation, symbolizing the warmth and vibrancy your fire pit brings to gatherings around it. The name "Ahi" is rich in meaning, giving a primal sense of tropical warmth, natural beauty, and relaxation, enhancing the atmosphere of any outdoor space.

One of the most ancient and widely worshiped Celtic deities. "Belenus" is considered God of sun, light and healing. It represents the power of light to overcome darkness, much like the flames of a fire pit bring illumination and comfort to the night. In Celtic tradition, often fire was a central ritual for celebration. "Belenus" is distinctive, and adds an air of mythological grandeur, making it a meaningful addition to your outdoor space.

In Slavic culture, “Dazbog” is a sun deity associated with warmth, light and life. A fire pit which radiates heat, perfectly embodies these qualities. Fire represents primal energy, transformation, and the cycle of life - all of themes are embedded in Dazbog’s mythological role as a provider of light and sustenance. “Dazbog” is often linked to prosperity and abundance. Our “Dazbog” fire pit represents the warmth and generosity it brings to gatherings, fostering a sense of community and sharing.

“The only way to fight the darkness around us, is to light a *fire* within us.”

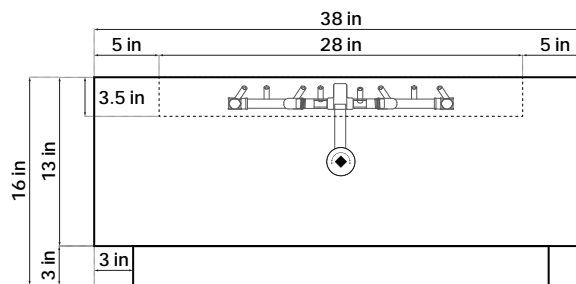

“Kama” is the god of love and desire in Hindu mythology. Fire is often seen as a symbol of passion and energy. It is transformative and can represent connection and togetherness, just as love and desire can shape lives. Our “Kama” collection encapsulates the fiery essence of passion, transformation, and connection – qualities that make your fire pit more than just a source of warmth.

“Inspiration is that little *spark* that comes at night to set our souls ablaze.”

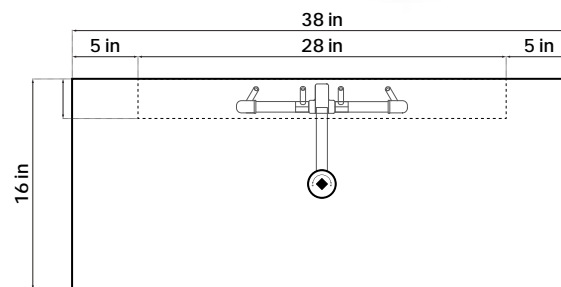

In Slavic mythology, “Svarog” is the god of fire and blacksmithing. “Svarog” is often seen as a creator deity, forging the world and its elements. Fire, as both a destructive and creative force, mirrors this transformative and creative power. The name carries a sense of strength and mystique, making your fire pit not just a functional feature, but a symbol of ancient wisdom and elemental strength.

The background is a dark, almost black, space filled with dynamic light elements. On the right side, there are several glowing blue, wavy, ethereal lines that resemble smoke or energy trails. Scattered throughout the scene are numerous golden-yellow sparks and particles, some appearing as short, bright streaks and others as small, glowing spheres. The overall effect is one of creative energy and inspiration.

“Let us build your *story*, one spark at a time.”
